## THE PRESIDENT'S MESSAGE

### PRESIDENTIAL REPORT - OCTOBER 2019

Mr. Geoffrey Cavalier, CSI,  
Assoc. AIA, NCARB  
CSI Knoxville Chapter President  
[cavaliergeoffrey@gmail.com](mailto:cavaliergeoffrey@gmail.com)

Last month's meeting at Calhoun's on the river was another successful meeting of networking and an informative presentation by James Cain, the Executive director for Southeast Concrete Masonry Association (SCMA). James spoke about relevant code updates, benefits of thermal mass, and safety advantages of concrete masonry. I think if there was one thing he wanted you to get out of his presentation is that no matter all the pros and cons of building materials of walls, concrete masonry is one of the safest options for wind, fire, and moisture resistance. It isn't necessary (or cost effective) for everything we design and construct to be built with completely non-combustible materials, but by using concrete masonry, especially in residential projects, we can increase the wind and fire resistance and decrease the chances of lives lost and property damage.

This month's meeting at Calhoun's on the river we will have a presentation on the "Design of Seating Spaces for Auditoriums & Theaters" which qualifies for an HSW credit. This presentation will cover basic terms for auditorium seating, typical seating configurations, safety and codes. I hope you can make it and please introduce yourself if we haven't met yet. I would love to talk and learn why you joined CSI! Remember that that you can bring a guest and their first meeting is free!

Later this month is the 26th annual CSI golf tournament at Egwani Farms Golf Course in Rockford, TN. This event on October 25th is incredibly successful every year and if you have never gone we hope this can be your first time! If you would like to sign up you can do so on the CSI Knoxville website and if you would like to be a sponsor you can contact Wes Crow: [WCrow@johnsongalton.com](mailto:WCrow@johnsongalton.com). The deadline is October 21st.

Mr. Geoffrey Cavalier, CSI, Assoc.  
AIA, NCARB

## CSI TECHNICAL

### WHAT I LEARNED FROM CSI...

### WHY I JOINED CSI

**MR GARY T. BERGERON, CSI**  
**Kelso-Regen Associates, Inc.**  
**CSI Knoxville Technical Chair**  
[gary@kelso-regen.com](mailto:gary@kelso-regen.com)

Geoffrey Cavalier asked me to talk today about how CSI has given my career a boost...

The CSI logo says "Building Knowledge, Improving Project Delivery" but exactly what does this tag line really mean?

I originally joined CSI Knoxville in 2008 to network with the local construction industry more effectively. A construction science education has been a significant benefit to my CSI membership. CSI is an inclusive organization that has architects, engineers, contractors, and product reps as members who are a tremendous knowledge base. I count on CSI friends like Kent Kile for help on paint & glass, Suzan Jordan & Darson Buckner assisting with air barriers on many projects, Margaret Fisher's advice on wood movement for two recent technical articles, Stacy Colbaugh who publishes those technical articles in the CSI Knoxville Speck, Kathryn Fuller who edits my technical articles, Kathy Proctor on CSI chapter and business leadership, Stephanie Cook on ADA issues, and many other friends too numerous to mention. The information obtained from many CSI friends shows how CSI is the "hub of the wheel" for the construction process. If you have ANY questions about the building process, there is someone in CSI who has "been there" and can help. I have learned the HVAC, plumbing and fire sprinkler systems are a small part of a much larger building environment. Based on what I have learned in the past 11 years, I wish I had joined CSI at the beginning of my career in 1984.

The CSI construction science education prompted me to develop several speaking topics that have been certified by CSI for CEU credit:

Two presentations Geothermal Systems and a Mechanical Checklist for architectural clients have been presented 26 times since 2010

The building systems ARE review for emerging professionals has been presented since 2012 in Memphis,

Chattanooga, and Knoxville for a total of nine times

My speaking on the topics above led to other engagements:

ARCH classes 431, 471, 509 on HVAC integration guest lecture every fall semester since 2011

ENG 444 class Geothermal systems in 2011

2012 IECC for USGBC in Knoxville, Chattanooga and Johnson City presented in 2013

2012 IRCC for American Society of Home Inspectors presented in 2014

ADA symposium 2012 & 2013

BsET 411 & 225 HVAC and fire sprinkler system overview 2013 & 2014

Blueprint reading class for ACW since 2014

Sustainability lecture for Knox County STEM academy in 2017

AIA-S Southern Quad panel discussion on sustainability and building materials in 2019

ACE Mentorship program at South Doyle High starting in the fall of 2019

There is no doubt that CSI friendships and professional connections at CSI have given my career a boost which resulted in the 2017 national Robert P. Brosseau award for the advancement of CSI and the 2018 Gulf States Region Eugene Wetzel Award for communication excellence.

I encourage everyone to continue coming to the CSI meetings and other fun activities to learn more about building knowledge and improve your projects.

## NEW MEMBER SPOTLIGHT

### MR. BRIAN SICKLES, CSI, CDT, AIA

#### All About Brian...

1. What is your name?

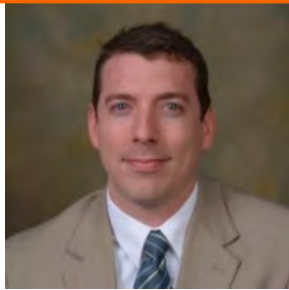

Brian Sickles, CSI, AIA.

2. Are you married? Yes, my wife is Annie. What does your spouse do? Annie's currently working at home with our 2 little boys.

2. What is your profession? I'm an Architect. Last year, I transitioned from the role of Project Architect/Project Manager/BIM Manager to the Director of Construction Specifications/BIM Manager.

3. When did you come to Knoxville? from where? We moved from Montgomery, AL to Knoxville in March of this year after our corporate office announced the opening of a Knoxville branch to aid in recruiting top talent. We're excited to live in this beautiful part of the country.

4. Tell me a little about your firm. What types of projects have you been involved in? I'm a Senior Associate with Sherlock Smith and Adams Inc. (SS&A). We are an Architecture and Engineering firm specializing in technically complex building types. Our success depends heavily on close coordination with our engineers and equipment planners. Most of the projects I've been involved in are healthcare projects for the Department of Defense. Hospitals, Clinics, Labs, and Research facilities. I've recently worked on a military working dog / veterinarian treatment facility for the Naval Station

Guantanamo Bay, Cuba, a dental clinic at Ft Hood, Texas, an intensive care unit renovation at Ft Campbell, Kentucky and a medical Clinic at Schofield Barracks, Hawaii. We have offices in Knoxville, Montgomery and Auburn, but most of our site visits and design review conferences involve plane travel. I really enjoy the specialized niche we work in and the clients we work with.

5. When did you join CSI? I joined CSI after moving to Knoxville. My new job description requires that I'm both CDT and CCS certified. CSI's certifications and study materials have been very helpful filling some blind spots in my education.

6. What do you want to do in the chapter? I am currently serving on the Knoxville Chapter's Board of Directors. I'm hoping to help the UT student chapter to network with local CSI members and connect them with our local resources for quality presentations in their monthly meetings.

7. Where did you go to school? I graduated with Bachelor Degree from Auburn University in 2011 where I met my wife.

8. Hobbies? My wife and I both enjoy running, home improvement projects, reading non-fiction and writing.
