THE KNOXVILLE CHAPTER MEETS ON THE SECOND TUESDAY OF EVERY MONTH. GUESTS ARE WELCOME!

CSI KNOXVILLE IS A MEMBER OF THE CSI GULF STATES REGION

THE SPECK Editor

Stacy Flick Colbaugh - Editor
scolbaugh@lewisgroup.net

THE SPECK is published monthly by the Knoxville Chapter of the Construction Specifications Institute. Readers are encouraged to submit articles and images of the construction industry interest for our membership. All submittals should be sent via e-mail, in the following formats: PDF, RTF, TIFF, JPEG, DWG, BMP, EPS, & DOC. Deadlines are the 25th of each month.

Don't forget! You can now access The Construction Specifier for free online at
www.constructionspecifier.com.

THE PRESIDENT'S MESSAGE

WHAT I LEARNED FROM CSI

MR GARY T. BERGERON, CSI
 Kelso-Regen Associates, Inc.
 CSI Knoxville Chapter President
gary@kelso-regen.com

CHANGES...

Darson Buckner, Suzan Jordan and Gary Bergeron spoke at the East Tennessee building Officials Association group recently. They spoke about 2012 International Energy Code changes and the importance of air barriers. Also discussed were the upcoming changes in 2015 codes along with the ASHRAE requirements for commissioning.

MR GARY T. BERGERON, CSI
 Kelso-Regen Associates, Inc.

CSI LOCAL INTEREST

TECHNICAL SOCIETY OF KNOXVILLE

Jack McElroy, the Knoxville News Sentinel editor, will be our guest speaker on March 9, 2014. The title of his talk will be *“How Scientists and Engineers Can Contribute More to Public Dialog in the Knoxville Area”*. The historic role of the Technical Society of Knoxville has been very much geared to Mr. McElroy's topic and we are presently addressing the role of the Technical Society for the future.

The News Sentinel provides a valuable service by announcing the Technical Society meetings in each Sunday's business section.

Technical Society meetings take place at the Crowne Plaza on Summit Hill Drive in downtown Knoxville. Complimentary self parking is available in the hotel garage. Meeting attendees receive a token for exiting the garage without charge after the meeting. Members and guests begin arriving around 11:30 and go through the buffet line. Cost is \$13 per person. The meetings start at 11:55 and end at 1:00. Visitors are welcome.

For more information contact Bob Scott, secretary, at 690-0705 or TechnicalSocietyofKnoxville@gmail.com or go to the Technical Society website at TechnicalSociety.net.

The Technical Society of Knoxville is a group of persons interested in technology and science, and their effects on society, and in particular, on the community. The Society was founded in 1921 by Charles E. Ferris, the first dean of the UT College of Engineering and a group of leading members of the community. It has been an important civic organization for the technical and scientific people in the greater Knoxville area for 93 years.

The Technical Society has voted to become an umbrella organization if other technical organizations are willing to participate. All Technical Society members are urged to encourage people who could contribute to join the Society. Members of other technical organizations are urged to use their influence to have other organizations participate.

*Joe Carson, PE
Interim President
Technical Society of Knoxville*

The forecast calls for Tyvek®.

Protecting structural integrity isn't just about engineering. More and more it's about intelligent moisture management.

That's why you'll find DuPont™ Tyvek® CommercialWrap® on so many new projects.

It's the weather-resistant barrier designed specifically to help protect exterior wall systems in today's commercial construction. Tyvek® is many times more effective at water holdout than conventional building papers. It also breathes, helping to allow moisture vapor to exit the wall cavity. So walls stay dryer and building systems work as intended.

Tyvek® CommercialWrap®. Designed to protect what's important to you. Find out more at **1-800-44-TYVEK** or **www.TYVEK.com**.

CSI MEETING MINUTES

BOARD BRIEFS - FEBRUARY 3, 2015

By Nancy Roberts, CSI, CDT

Edited by THE SPECK Editor, Stacy Colbaugh, CSI, CDT

In Attendance:

Leslie Fawaz, Treasurer

Nancy Roberts, Secretary

Samer Shatara, Past President

Jim Odle, Director (2014-2015)

Kathy Proctor, Director (2014-2016)

Suzan Jordan, Director (2014-2016)

Jim Vineyard, Programs Chair

Josh Brock, Product Show Chair

These meeting minutes were recorded and are presented as understood by the Secretary, Nancy Roberts, and are outlined as follows:

The meeting was held at Odle & Young's Office and was called to order at 5:40 p.m. by Samer Shatara. Meeting generally followed a meeting agenda provided by Gary Bergeron in advance of the meeting.

1. Previous meeting minutes (attached)

The January 6, 2015 meeting minutes had been emailed to board members by Nancy Roberts and accepted by the board.

2. Treasurer's report (attached)

The treasurer's report had been emailed to board members by Leslie Fawaz.

3. President report

Gulf States Region (GSR) conference will be hosted by Acadiana Chapter and held in Lafayette, LA on April 17 & 18. Suzan Jordan, Kathy Proctor, and Gary are planning to attend. Gary's notes stated that he spoke to Mary Beth Robinson's interior design class on January 27th about CSI specifications and Master Format.

4. President Elect Report

Gary's notes stated that Josh Brock, Gary, and Jim Vineyard met with Crowne Plaza representative to determine menu and other items for the upcoming product show. Josh reported that parking arrangements have been made for attendees.

5. Vice President report – position currently vacant

No report from Lukas Salyer. There was discussion in his absence about action, if any, of the nominating committee which includes Gary, Jim Vineyard, and Darson Buckner with Lukas as chair of the committee. The schedule has

not changed. Jim Vineyard offered to spur some action on the nominating committee.

6. Board members/committee group reports

6.1 Member Services (membership, fun, and house) – Jim Odle, Director: No report.

6.2 Education (education, programs, and special programs) – Will Dunklin, Director: Gary's notes stated that the Ameristar Lunch & Learn on January 21st was a great success with sixteen attendees, including four students from UTK's construction science program. BA Solutions Lunch & Learn will be held on February 18 at ETCDC. There were other potential programs noted.

Jim Vineyard stated that February speaker will be Casey Robb, former CSI National President, to speak on building envelope. March will be the Product Show. Suzan and Leslie will print additional flyers to distribute at both chapter meeting and upcoming Lunch & Learn. April speaker will be Pat Ezzell, TVA Historian. This meeting will serve as the joint ACW meeting.

Gary's notes stated that he and Darson will speak to East Tennessee Codes Officials on February 19th.

6.3 Recognition (technical, certification, and awards) – Donna Covert, Director: No report.

6.4 Communications (website, publication, and liaison) – Daniel Smith, Director: No report other than Suzan offered to follow-up with Daniel about award nomination of Stacy Colbaugh for newsletter. Suzan will also update Facebook event to include the BA Solutions Lunch & Learn.

6.5 Fundraising (product show and golf tournament) – Kathy Proctor, Director:

6.6 Chapter Administration (planning, historian, bylaws, and operating guide) – Suzan Jordan, Director: Suzan will confirm with Calhouns to reserve meeting space through June.

7. Calendar

No changes to calendar.

8. Old business

No old business.

9. New business

Discussion about whether dues should remain the same for upcoming year. Board voted to keep chapter dues the same as current year.

Discussion about hardship applications for members and the Board voted to reimburse Institute dues for both applicants.

The meeting was adjourned at 6:40 p.m.
Next board meeting will be March 3rd.

GSR Leadership CONFERENCE

ONLY GSR conference in 2015

CHANGE OF CONTACT INFORMATION

If you have any changes to make to your mailing address, email, employment info, etc. be sure and update this information on your CSI Profile. This will make sure you continue to get the newsletter and any other important information from our chapter.

Here is how you do it:

1. Go to www.csinet.org
2. Log in with your Username, which is default to your first name@last name and the default password is your member ID.
3. If you don't know your member ID:
 - a. Contact your CSI Knoxville Newsletter Editor:
Stacy Colbaugh (865) 584-5000
scolbaugh@lewisgroup.net

- b. Contact your CSI Knoxville Membership Chair:

Darson Buckner 865-556-3140

darsonbuckner@hotmail.com

- c. Call the CSI Institute Membership Department:
1-800-689-2900

4. You can make changes, after you have logged in, by selecting **MY CSI** tab at the top of the page. Click on **"Update Your Profile"** and select **"Contact Information"**
5. Update your contact information.
6. When finished, click **ACCEPT...** and You are finished!!

CSI CORNER

MANUFACTURERS' SPECIFICATIONS DON'T FOLLOW CSI'S PRACTICE GUIDE; WHY ARE YOU SURPRISED?

By Sheldon Wolfe, RA, FCSI, CCS, CCA
Greater Minneapolis-St. Paul Area

CSI's practice documents - MasterFormat, SectionFormat, and the Practice Guides - present a unified and consistent approach to preparing and interpreting construction documents based on AIA or EJDCDC general conditions and related documents. They also are applicable to documents produced by most other organizations, though some modification may be necessary. When teaching CSI classes, I emphasize the overall organization of these documents as a first principle; with that in mind, it's easier to understand why things are organized the way they are, and to see how they all work together. This sometimes leads to comments and questions, such as, "That's not the way my office does it!" and "Why don't this manufacturer's specifications follow those rules?"

Together, CSI's practice documents provide a firm but adaptable framework for preparing construction documents. They provide enough structure so, as the old adage says, there is "a place for everything and everything in its place." On the other hand, they are sufficiently flexible to allow one to specify just about anything imaginable.

Although these documents create a fairly complete framework, they do not go into great detail about how to address all matters: there is no standard specification for concrete; a number of optional methods are offered; there is no boilerplate text for any part of a specification beyond article titles, and even those are suggestions. The specifier, following the principles of the practice documents, is left to supply the remaining detail. Obviously, this leaves a lot to be done. If a specifier were to start with nothing more than access to products, it would take a long time to assemble a set of master specifications. The widespread availability of reference standards is of inestimable help, making it possible to easily define performance testing methods and properties. However, even with these standards, writing even a simple section could take many hours, and the amount of research that would be required for a complex system or assembly could be overwhelming. (Reference standards are not without their own problems; see "[Faith-based specifications.](http://bit.ly/11jxR9E)" <http://bit.ly/11jxR9E>)

Fortunately, a few entrepreneurial people, and later, manufacturers themselves, saw an unfulfilled need and began to produce master guide specifications for a great variety of construction products and systems. Unfortunately, the results typically have not followed the rules established by AIA and CSI documents. Even

"That spec is a real turkey!"

worse, guide specifications often are used verbatim or with only minor changes, and without much concern about how well they are written. A common excuse is that they are incorporated late in a project, but it's not unusual to see them become office masters with little change.

Manufacturers have a defensible position; they are in business to sell products, and they have a tendency to stack the deck any way they can in their own proprietary specifications. I'm not saying it's right, and it definitely doesn't comply with CSI practice guides, but it's understandable. How many times have you seen a manufacturer's guide specification that requires the product be produced by only that manufacturer, not once, but two or three times? From their viewpoint, it makes sense to identify the manufacturer under Section Includes, Quality Assurance, Manufacturers, Components, Assemblies, and a few more times under Execution. Some manufacturers also like to include a variety of restrictive specifications that have little to do with performance or quality. I won't be surprised if some day I see a manufacturer's specification that includes something like, "Label: Must include the words Acme Widgets, Inc."

Still, I can't get too excited when a manufacturer writes a specification that eliminates the competition. They still offer useful information, and the price is right. The sad thing is that some designers apparently don't realize what's going on, and leave all of the proprietary provisions in place - and then call it a competitive specification!

Regardless of how guide specifications are written, the designer should modify them so they express what is needed by the owner and the project.

CSI LUNCH & LEARN: SUSTAINABLE LEAK-FREE ROOF SYSTEMS

Presented by Alan Geer, Technical Sales Representative, Quest
Construction Products, LLC

WEDNESDAY, MARCH 18, 2015

LUNCH & NETWORKING: 11:30 A.M. – 12:00 P.M.
PRESENTATION: 12:00 P.M. – 1:00 P.M.

Hello CSI Members:

CSI Knoxville Chapter continues to offer you another learning opportunity provided by Alan Geer, Technical Sales Representative, Quest Construction Products, LLC. This presentation offers 1 Hour CEU with the following Learning Objectives:

Upon completion of this course, attendees will be able to:

1. Name the key attributes of Sustainable Roofing
2. Summarize the benefits of Sustainable Roofing within a long-term design view
3. Understand the features and benefits of Fluid-Applied Roof Systems
4. Identify the different types of Fluid-Applied Roof Systems

In this one hour course, we will define the key attributes of sustainable roofing within a long-term design view. Attendees will learn about sustainable roofing benefits, including extended roof life and reduced heat island effect. Through case studies,

we will discuss various sustainable roof types, including fluid-applied roof systems. We will address applications and installations of sustainable roofs in terms of best practices, performance and contribution to a more sustainable built environment.

Please relay this invitation to any and all interested parties especially those in your work place. This is a great opportunity to network and learn something new as well as an opportunity to introduce your guest to CSI. We welcome your attendance!

WHERE: East Tennessee Community Design Center
WATE 6 Carriage House
1300 N. Broadway, Knoxville, TN 37917

PARKING: You should be able to find a parking space in the WATE parking lot. There also may be a parking space available along Luttrell St.

RSVP: Seating is limited, if you wish to participate, please respond to Jeremy Shipp at shipp.arc@gmail.com with your name, email, and phone by Monday, March 16th.
