## CSI Knoxville Hybrid In-Person/Virtual Meeting!

Tuesday, April 12th, Time: 11:30 AM EST - 1:00 PM (EST)

Wayne Norman, Ameristar ASSA ABLOY

In-Person Meeting Location:

Associated General Contractors (AGC)

Address:

[3306 Ragsdale Ave NW, Knoxville, TN 37909](#)

RSVP: Boxed Lunch Provided

[RSVP: Click here to RSVP for In-Person Meeting](#)

The Knoxville Chapter meets on the second Tuesday of every month. Guests are Welcome!

Virtual Meeting: Zoom Link

Please join from your computer, tablet or smartphone

[Click here to Register in advance for this meeting](#)

**THE SPECK** Editor

Stacy Flick Colbaugh - Editor  
[scolbaugh@lewisgroup.net](mailto:scolbaugh@lewisgroup.net)

THE SPECK is published monthly by the Knoxville Chapter of the Construction Specifications Institute. Readers are encouraged to submit articles and images of the construction industry interest for our membership. All submittals should be sent via e-mail in a typical file format, such as .pdf, .docx, or .jpg. Please verify the accuracy of the information such as correct dates, spelling, and grammar. Deadlines are the 25th of each month.

**CSI KNOXVILLE IS A MEMBER OF THE CSI GULF STATES REGION**

After registering, you will receive a confirmation email containing information about joining the meeting.

**CSI HIGHLIGHTS**

Summary from Tuesday, March 1st Board Meeting

The board met via Zoom online conferencing to discuss the following CSI events:

- CSI Certification Study Group
- CSI Student Chapter Meeting Schedule
- CSI Chapter Awards Planning
- CSI Chapter Slate of Officers for 2022-2023
- Planning for the October Golf Tournament at Egwani Farms is underway and we are seeking sponsors and volunteers!

## THE PRESIDENT'S MESSAGE

## MASTERFORMAT®

### GREETINGS, KNOXVILLIANS!

Kathryn E. Fuller, AIA, NCARB, CSI CDT  
CSI Knoxville Chapter President  
[kathrynf@mbicompanies.com](mailto:kathrynf@mbicompanies.com)

Greetings, Knoxvilleians!

Our next lunch presentation will be on Tuesday, April 12th at the AGC.

Wayne Norman, Ameristar ASSA ABLOY, will present "*Perimeter Security Planning, Products, & Procedures*"

Let's make this a great event. Our events continue to be open to everyone – with in-person and virtual attendance options. I hope to see you, or "see" you, at our next event!

*Kathryn E. Fuller, AIA, NCARB, CSI CDT*

*CSI Knoxville Chapter President*

## APRIL 2022 ANNIVERSARIES

Aaron Miller	18 Years
Brian Sickles	3 Years
Stephen Littlefield	6 Years
Shannon Dean-Shmays	11 Months

MasterFormat® is the architecture, engineering, and construction (AEC) industry's gold standard for organizing and communicating specifications and work results for construction projects.

### Unify and Organize Your Projects

MasterFormat unifies your project under a common standard – connecting designs, building products, preconstruction activities, estimates, and contracts, and construction – supporting all phases of a safe, efficient construction project.

- Organize and communicate specifications across project phases with MasterFormat numbers and titles
- Provide the basis for organizing construction documents
- Standardize and manage building products, cost codes, estimates, contracts, and change orders

Lists of numbers and titles help you organize and communicate your plan to the whole project team. On task and on time - expect more of your projects to be completed as planned when you apply the information presented in MasterFormat.

**AFPOP3 – Perimeter Security Planning, Products & Procedures**

AIA HSW accredited presentation – 1 hour (CEU)

**SUMMARY**

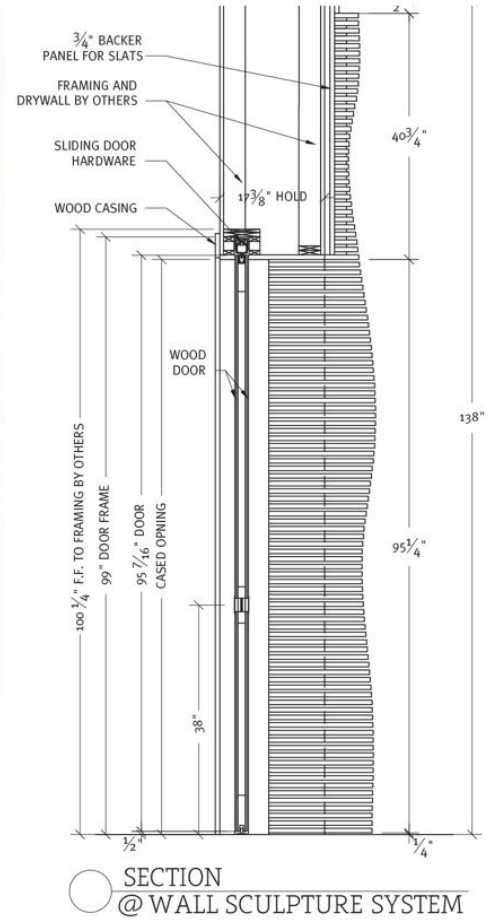

This presentation (1) outlines the role of passive and active perimeter security barriers and procedures in an effective holistic approach to blast mitigation and standoff distance for physical site security, (2) addresses recent developments and innovations with regard to design/build technologies, and (3) discusses the implications these products and procedures have on protecting critical infrastructure assets and facilities relative to homeland security.

**SYNOPSIS**

Establishing and maintaining the perimeter of a facility or asset is a key component to an effective physical site security program. After defining the anticipated threats, physical security products and procedures can be put into place and implemented to better achieve the protection objectives. Fences, barriers, gates, bollards, pillars, planters, and pedestrian and vehicular access control systems establish the perimeter. These products can be integrated with intrusion detection sensors, cameras, lighting, and communication equipment to effectively deter, deny, delay, detect, and respond to threats. Policies can be adopted to address procedural security threats. Recent product developments (with test video clips), design/build technologies, and procedures will be highlighted and discussed, focusing on holistic approach to physical site security.

The following learning objectives will be met –

- Learn the different Site Planning and Layers of Security. Highlights the elements involved in Site Planning Analysis, Crime Prevention Thru Environmental Design (CPTED), and the Concentric Rings of Security.
- Learn the physical security methodology as it pertains to perimeter security (Deny, Deter, Delay, and Detect).
- Learn the different Vehicle and Personnel Access Control Selections. Includes a virtual tour of a High Security Facility including offsite facilities and functions, vehicle access control points, personnel access control points, passive perimeter barriers, and electronic perimeter systems.
- Learn the different Perimeter Barriers and Product Selections. An overview of the types of physical security technology that is available.

# UNITED IN WOODWORKING EXCELLENCE

**Achieve the highest standards  
in interior woodwork with a  
strong team at your back.**

Ensure project outcomes (and satisfied clients) by specifying AWI Standards on interior woodwork, and include QCP Certification for verification of compliance and to guarantee that performance standards are met.

**Together, we're united in excellence.**

## MEMBER SPOTLIGHT

### MEET TYLER GOZA, CSI, AIA, NCARB

One of CSI Knoxville's new members is Tyler Goza. Tyler is an architect at Design Innovations Architects (DIA) here in Knoxville. He received his architectural degree in 2015 from the University of Tennessee and joined DIA just one year later. He came to Knoxville from his hometown of Cleveland, TN, where his parents and brother still reside.

When asked to tell us a little about his job, Tyler explained, "...the first project I got to work on was Regas Square. I'll never forget being extremely excited to work on such an iconic project right out of the gate... that project type has become my favorite to design and understand".

Tyler has had the opportunity to use his talents in a number of other projects at DIA including PreK-12 Educational, Multifamily Residential, Single-family Residential, Mixed-use, Historic Preservation, Hospitality, Industrial, Retail, and everything in-between. A couple of the highlights include: Regas Square Condominiums, Tyson Court Apartments, 200 Jennings Avenue Office Building, Hyatt Place Downtown Knoxville, Athens City Schools New PreK-5 School, and

Hankook Tire Plant among others. Currently he is doing CA work on a PreK-5 175,000 SF school in Athens, TN which is on track to be completed in the next 12-14 months.

When not working he tries to get outside and enjoy East Tennessee. He coaches soccer in Karns and loves the opportunity to be with family or friends on the golf course. "In the fall, you can find me in the stands at Neyland Stadium (or at minimum in the parking lots enjoying the sights and sounds). I was always a huge Vol fan growing up and spending the last 12 years in Knoxville has only elevated my fandom of the sports teams and the University of Tennessee. Now, I truly cherish those tailgates when many of my friends come back to town for the weekend to have fun together".

When asked why Tyler decided to join CSI, he shared, "I joined about a year ago for a couple of reasons:

- 1) I'd like to start transitioning from a PA to PM at DIA and I think CSI will be a good resource
- 2) Another architect I've observed, and respect has been a member for years and I would like to follow in a similar path
- 3) I'd like to get more involved in our profession outside of just my own firm to see different perspectives, approaches, thought processes and to learn from some of my peers."

Please reach out and introduce yourself to Tyler and welcome him into our chapter.
