The Construction Specifications Institute

## CSI KNOXVILLE CHAPTER MEETING TUESDAY, OCTOBER 10TH, 2017

### **BENEFITS OF A RIGID COVER BOARD IN A COMMERCIAL ROOFING SYSTEM**

Presented By: **Jon Pruner**, East TN Representative for APEX Group TN

**1LU/  
HSW**

Benefits of a Rigid Cover Board in Commercial Roofing Systems

## CALHOUN'S ON THE TENNESSEE RIVER

400 Neyland Drive  
Knoxville, TN 37902  
(865) 673-3355

Our Chapter meetings are generally on the 2<sup>nd</sup> Tuesday of each month and are at Calhoun's on the River in one of the upstairs meeting rooms.

|         |          |

Please RSVP to [csiknox@gmail.com](mailto:csiknox@gmail.com) by Monday, October 9th, 2017

ORGANIZED SEPTEMBER 1958 - CHARTERED MAY 1959

THE KNOXVILLE CHAPTER MEETS ON THE SECOND TUESDAY OF EVERY MONTH. GUESTS ARE WELCOME!

**CSI KNOXVILLE IS A MEMBER OF THE CSI GULF STATES REGION**

**THE SPECK** Editor

Stacy Flick Colbaugh - Editor  
[scolbaugh@lewisgroup.net](mailto:scolbaugh@lewisgroup.net)

THE SPECK is published monthly by the Knoxville Chapter of the Construction Specifications Institute. Readers are encouraged to submit articles and images of the construction industry interest for our membership. All submittals should be sent via e-mail in a typical file format, such as .pdf, .docx, or .jpg Please verify the accuracy of the information such as correct dates, spelling, and grammar. Deadlines are the 25th of each month.

**CALENDAR OF EVENTS**

**OCTOBER 2017**

- 03 **CSI Board Meeting** - Tuesday, October 3rd, 5:30 pm at Odle & Young's Office
- 10 **CSI Chapter Meeting** - Tuesday, October 10th, 11:30 am at Calhoun's on the River "**Benefits of a Rigid Cover Board in a Commercial Roofing System**" Presented By Jon Pruner from Georgia Pacific (1LU/HSW) RSVP at [csiknox@gmail.com](mailto:csiknox@gmail.com)

**NOVEMBER 2017**

- 07 **CSI Board Meeting** - Tuesday, November 7th, 5:30 pm at Odle & Young's Office
- 14 **CSI Chapter Meeting** - Tuesday, November 14th, 11:30 am at Calhoun's on the River "**Leveraging Existing Custom Fabrication Abilities in Small Affordable Houses**" Presented By Ted Shelton & Tricia Stuth, curb / University of Tennessee Architecture and Design 1LU/HSW/GBCI/RIBA [trussesandframes.wordpress.com](http://trussesandframes.wordpress.com) RSVP at [csiknox@gmail.com](mailto:csiknox@gmail.com)

**DECEMBER 2017**

- 05 **CSI Board Meeting** - Tuesday, December 5th, 5:30 pm at Odle & Young's Office
- 14 **CSI Chapter CHRISTMAS PARTY** - Thursday, December 14th, 5:30 pm at TBD

**JANUARY 2018**

- 02 **CSI Board Meeting** - Tuesday, January 2nd, 5:30 pm at Odle & Young's Office
- 09 **CSI Chapter Meeting** - Tuesday, January 9th, 11:30 am at Calhoun's on the River "Program TBD" RSVP at [csiknox@gmail.com](mailto:csiknox@gmail.com)

## THE PRESIDENT'S MESSAGE

### WHAT I LEARNED AT CONSTRUCT 2017

MR JAMES ODLE, CSI, CDT  
Odle & Young Architects  
CSI Knoxville Chapter President  
[j.odle.oyarch@comcast.net](mailto:j.odle.oyarch@comcast.net)

First of all, what happens in Rhode Island stays in Rhode Island.

That is just the rules of the road when it comes to convention visits. Not that anyone misbehaves on these ventures, but you spend most of your time with your fellow travelers. Sometimes you have to help each other out. You learn to appreciate your comrades. So I won't be revealing any state secrets or embarrassing moments of the trip. And whatever you may hear about Gary Bergeron and I dancing together at the CSI Night Out event is a total fabrication.

So you learn a lot about each other. But the point of a national convention is to gain education, new perspective, and insight into the future of the construction industry. I personally must have attended 12 or more courses or seminars or lectures over our 3 day period, plus the 2 days on the exhibit floor talking with reps and others. It's a challenging time frame and wears one out. Several of you who have been before know this.

The course offering is most diverse, so there is always something for everyone, for most every topic. This year I found the courses and instructors very good for the most part (meaning that in spite of getting in the lecture hall by 7:45 in the morning I did not fall asleep for most). Most gave useful information and new knowledge on their topics, stuff we can take and use. I will save technical details of some these for later articles maybe.

Our keynote speaker, Thom Mayne, principal of Morphosis, an architectural firm in Santa Monica, California, is renown for his unusual designs and processes. As the name of his practice would exhibit, it is a multi-disciplinary practice that includes fabrication and technical design. His approach to architecture, design and construction is out of box for most of us in practice, but the purpose of his presentation was to explore project cost management opportunities, through planning, design, and construction controls. Definitely not a design-bid-build process. It was a look into where architecture may be headed in the generations ahead.

The next day our minds were expanded even more by the presentation of Paul Doherty of TDG (the Digit Group). His practice is global and is one of the most sought after thought leaders with a world overview of how technology is changing the ways we design and build and even approach our built environment. His challenging presentation addressed Big Data, the Internet of Things, Virtual Reality, Kinetic Energy, Autonomous vehicles, drones, smart cities, smart buildings, and smart neighborhoods. It was an interesting look into strategy for design and construction in a changing world. As Bob Dylan has sung before, "the times, they are a changing", just has his presentation illustrated.

The same is true of CSI and its national organization. It is changing to become more relevant to its membership and industry. The challenge for us as a CSI local chapter is "how do we become increasingly relevant to our membership?" We seek to provide education, relationships, and networking with all those working in areas of the built environment. We welcome your input or suggestions in this regard. In the meantime, plan ahead for the next Construct 2018 in Long Beach, California. You can bring home your own stories and tales, which of course, you cannot tell.

*Mr. James Odle, CSI, CDT*  
*CSI Knoxville Chapter President*  
[j.odle.oyarch@comcast.net](mailto:j.odle.oyarch@comcast.net)

CSI PRESENTATION SUMMARY

# Benefits of a Rigid Cover Board in Commercial Roofing Systems

**Program Name:** Benefits of a Rigid Cover Board in Commercial Roofing Systems  
J185

**Program Length:** Approximately one hour

**AIA Credit:** 1 learning unit toward Health, Safety & Welfare

**Program Description:** This program's goal is to inform the design community on the value rigid cover boards deliver to commercial roof assemblies, how they perform in adverse conditions and bring clarity to the characteristics of each major type of board.

**Learning Objectives:** After the program, participants will be able to;

- Define the functions of a cover board in a commercial roof assembly
- Describe the commonly used cover board materials
- Discuss how cover boards perform in adverse conditions
- Articulate the performance characteristics of each type of rigid cover board

**Speaker:** Jon Pruner  
APEX Group  
[jon@apexgrouptn.com](mailto:jon@apexgrouptn.com)

**Biography:** Jon Pruner has been representing commercial roofing manufacturers for 3 years and he has been selling exterior construction materials for the past 14 years. He graduated from Northwood University with a Bachelor degree in Business. He resides in Bristol, Tennessee, but he covers East Tennessee including Tri-Cities, Knoxville, & Chattanooga. He represents Densdeck, Carlisle, Petersen Metals, and American Weatherstar Coatings. He helped form the Apex Group last December with Scott Wilson out of Nashville, Tennessee.

Dress is casual. Shorts are acceptable, jeans are not allowed. Collared shirts are recommended. You do not have to field an entire team to play. Individuals may sign up and they will be teamed with others for a good mix of talent.</p> |

# Lunch & Learn

## 1 HR Learning Unit (1 LU/HSW)

**Steve Easley,**

**Internationally recognized construction consultant**

**Professor of Building Construction & Contracting at Purdue University**

**Co-Host of Discovery Channel's *Your New House***

Don't miss this chance to hear world-renowned Steve Easley and enjoy a delicious lunch at absolutely no cost to you! You will not regret this chance to learn more about building science in a highly interesting and engaging way and get 1 LU!

**TIME: 11:30AM to 1:00PM DATE: Friday**

# 10.27.17

**Southern Depot**

318 West Depot Avenue

Knoxville, TN 37917

Steve speaks regularly for these and other professional organizations and conferences:

- International Builders Show (IBS) (NAHB)
- Construction Specifications Institute (CSI)
- 21<sup>st</sup> Century Building Expo
- American Institute of Architects (AIA)

*"I have never sat through a seminar where I have seen builders pay as much attention as they do in Steve's seminar."*

*"Best speaker, moves along quickly and the presentation is free from any personal or political agendas."*

*"He is clear, direct to the point and a superior lecturer. It was worth the 6 hour drive."*

As seen on:

**Schedule: Lunch -11:30AM - 12:00PM**  
**Seminar -12:00PM -1:00PM**

**Tuesday, September 19, 2017**

CSI Knoxville Chapter would like to thank Geoff Ward with Mid America Marketing /American Standard Plumbing for a great lunch and learn on "Water Efficiency Strategies for Commercial Plumbing" Geoff presented the test procedures used by manufacturers such as U.S. ANSI Standard Performance Tests. Mr Ward also described how federal, state and local guidelines impact the selection of high efficiency plumbing products. Also, he explained how new product design impacts performance and water consumption.

We had 10 attendees who enjoyed sandwiches, chips, iced tea, and chocolate chip cookies for dessert.

A Special thanks to Jeremy Shipp at Johnson & Galyon and Will Dunklin who arranged the speakers along with Leslie Fawaz who have coordinated with CSI to use the East Tennessee Community Design Center conference room for the technical presentations for the past several years.

*Institute* AWARDS

**OUTSTANDING CONTRIBUTION AWARD**

*Presented to a CSI member, Chapter, Region or Group that has made commendable contributions that furthers the influence of CSI in the local construction industry; increases the visibility of CSI in the local construction industry; or provides a value-added service to the chapter, region or Institute.*

**William Sundquist, CSI**

For his unwavering dedication, enthusiasm, energy and support of CSI; he can be found tweeting, posting, writing or speaking CSI and mentoring new leaders.

*Institute* AWARDS

COMMUNICATIONS AWARD (CONTINUED)

**Mississippi Chapter 60th Anniversary Video Team**  
 John Dunaway, CSI, CCS, Charlene Dunaway, Philip McDade, FCSI, Lifetime Member, CCS; and John Murray, CSI, CDT

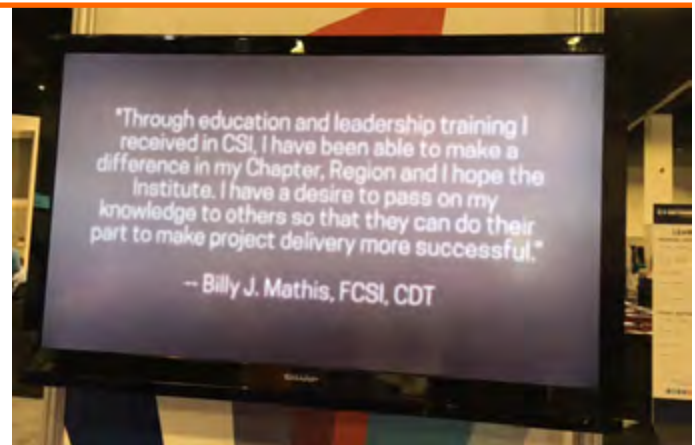

The Mississippi Chapter's 60th anniversary video "A Proud Past, A Promising Future", was used during their 60th anniversary celebration to not only celebrate their past and where the Chapter started, but to show how the Chapter has progressed and maintained its presence in the Jackson, Mississippi construction industry. The video was shared via YouTube which has introduced the Mississippi Chapter to the entire country.

*Fellowship*

Fellowship is one of the top two honors given by the Institute. Fellows of the Institute are chosen by their peers. Nominees must have been members in good standing for not less than five years and have notably contributed to the advancement of construction technology, the improvement of construction specifications, education, or by service to the Institute.

For a full listing of CSI Fellows visit [www.CSIResources.org/HonorsandAwards](http://www.CSIResources.org/HonorsandAwards)

**Billy J. Mathis, FCSI, CDT**

For his role as a communicator in word and deed; for producing carefully crafted guides for chapter and region processes; for publishing many articles promoting CSI formats and methods; for his intense drive and strong determination creating construction documents and training peers in accordance with CSI principles; and for his enthusiasm as you recognize challenges, implement corrective measures, and remain at the forefront of solutions.

CSI CORNER

THE MAKING OF A CONVENTION

By Sheldon Wolfe, RA, FCSI, CCS, CCGA  
Greater Minneapolis-St. Paul Area

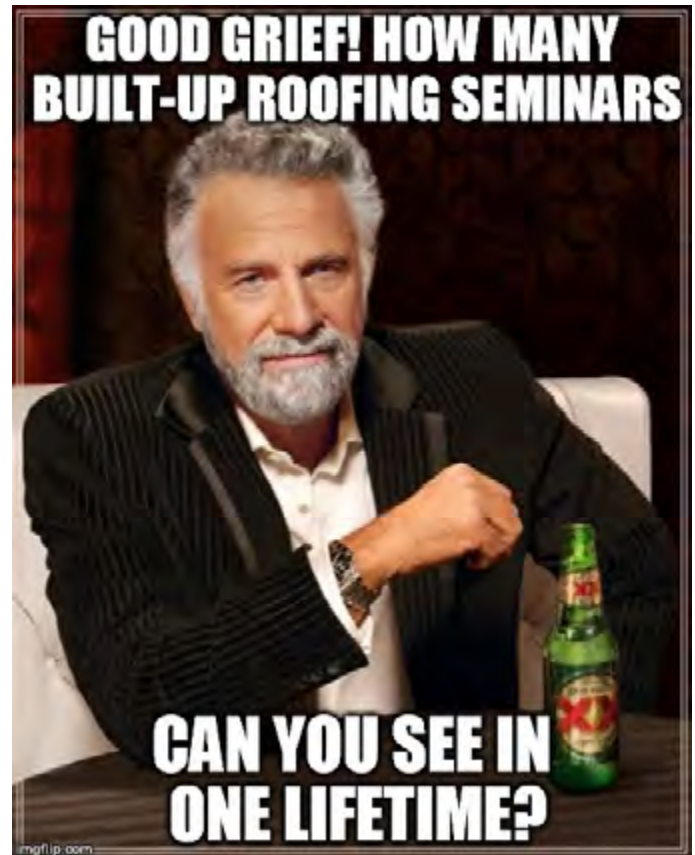

A lot goes into a convention: location, scheduling, publicity, solicitation of exhibitors, invitations to potential attendees, and more. Although the exhibit floor is extremely important to exhibitor and attendee alike, the educational seminars and activities are equally important. Those activities take many forms. The traditional lecture format continues to be popular, but interactive presentations have been increasing. Panel discussions, which seem to be either dreadful or very interesting, allow audience participation. In the last few years, we have had presentations and live demonstrations on the exhibit floor. On occasion, these involve one of my favorite activities - getting your hands dirty. Another recent addition has been YP Day (Young Professionals Day), a collection of special events aimed at young professionals and others new to the construction industry. I've always known that choosing presentations and speakers must be difficult, and this year I learned how true that is. In December of last year, I was asked to serve on the CONSTRUCT 2017 Education Advisory Council, the group that helped selected this year's speakers and presentations. The Council was led by Jennifer Hughes, Informa Education Manager. In the past, I had made suggestions about presentations, so I felt obligated to accept the challenge.

We started by reviewing a list of about ten possible tours. Even though I love tours, especially of production facilities, I have arrived at convention early enough to go on one only a couple of times. The calls for speakers were still coming in, so we didn't start on those for a while.

As you're probably aware, CSI and other organizations typically send out calls for presentations shortly after the previous year's event. In the past, I wondered why they started so far in advance, but there are three good reasons. First, there's a lot more to the selection process than you might realize, and it takes a lot of time. Then, there is human nature; it seems that no matter how much time is allowed, most people wait until the last minute to submit. Finally, advertising and schedules for the next convention begin to appear months before the event. With registration set to open in May, we had to complete our work by the end of February.

The original deadline for proposals for CONSTRUCT 2017 was 9 January; at the time, I was disappointed to learn that only thirty-four had been submitted. With that few, the rest of the process would have been easy, as we would have had to use all of them. After the deadline was extended by one week, we received a list of nearly two hundred proposals - and then the fun began.

Jennifer asked us to review and score the proposals early in February. The spreadsheet she sent had two tabs. The first included information about the proposals, including title, description, speakers, learning objectives, estimated "grade level" (100, 200, 300), primary audience, and

secondary audience. It also indicated which speakers had submitted multiple proposals. The second tab contained information about the speakers, including bios and speaking experience.

Evaluating presentations is not an easy task. The titles sometimes are misleading, the descriptions sent by the presenters can be confusing, and the most important parts - the speakers' abilities and the actual content - remain unknowns to those who haven't heard the speakers. Many of the council members had heard a few of the presenters, so we took their observations into account. Another factor is length of the presentation. Most of them were set at 60 minutes, but some were given 75 or 90 minutes, the intent being to give more time to those speakers who are covering complex subjects.

(CONVENTION... Continued on Page 13)

(CONVENTION... Continued from Page 12)

Some topics were the subject of many speakers, so we had to decide who would do the best job. Credentials are useful information, but they don't apply to presentation style or ability to make the subject interesting. On the other hand, having multiple presentations about a given subject is good for attendees, who often have to choose between two or more topics they want to learn about. After initial comments had been submitted, we went through a series of scheduling options, which included changes in titles, descriptions, and times. Given the number of options and the amount of information, each iteration took a lot of time. But we did it! In the end, the scheduled events were: 41 seminars, 2 tours, 22 presentations on the show floor, the YPD events, a keynote speaker, and the "game changer" speaker.

A few observations

One of my standard comments about convention presentations is, "How many built-up roofing seminars can you see in one lifetime?" I heard similar comments during the convention; "I heard that two years ago", "I talked about that ten years ago!", and so on. While repetition might seem a problem to the veteran, though, we always have new people who need the same basic information. We'll always have 100 level presentations. One of the most difficult things to evaluate is the grade level of a presentation you haven't heard. The description might sound like it's for those with more experience, but too often the comments are "That was a waste of time." When you consider the experience that most specifiers have, it's not surprising to hear those comments.

The spreadsheet was so large it couldn't be printed. I displayed it on two 24-inch monitors but still had to do a lot of scrolling, and I used a third monitor for other files and for looking up speakers online.

"Interactive PowerPoint" is not the same as an interactive presentation.

One of the first things I did after joining the group was contact Paul Doherty, and I encouraged having him as the keynote speaker. I have skipped many general sessions because the keynote speakers too often are motivational speakers who may be entertaining but have little to say. However, I did attend and enjoy Thom Mayne's presentation. I'm not a big fan of celebrity architects, but his firm's involvement in design goes beyond making pretty pictures; they apparently get into the details and material properties. I don't care for their results, but the process is interesting, and I hope it inspires other architects to care more about how their buildings work. Thanks to Jennifer for assembling and managing the Advisory Council, and for her dedication to the educational part of the convention. If you have comments about this year's programs, or suggestions for future topics, I encourage you to send them to both Jennifer at [Jennifer.hughes@informa.com](mailto:Jennifer.hughes@informa.com), and to CSI staff at [memberservices@csinet.org](mailto:memberservices@csinet.org). And as always, I invite you to post your comments on my blogsite.

## CSI Knoxville Product Show – Door Prize! March 13, 2018 – Crowne Plaza

**COFFEEBOXX  
 Green**

**Field Case in  
 Special Ops Black**

September 05, 2017

# CSI Board Meeting Minutes

**In Attendance:**

- Jim Odle – President
- Aaron Miller – President-Elect
- Geoffrey Cavalier – Vice President
- Suzan Jordan – Past President
- Will Dunklin – 2016-2019 Board Member (acting as secretary in Susan Davis absence)
- Samar Shatara – Board Member
- Leslie Fawaz – Board Member

These meeting minutes were recorded and are presented as understood by the acting Secretary, Will Dunklin and are outlined as follows: The meeting was held Tuesday, September 05, 2017 at Odle and Young’s office and was called to order at 5:40 pm by President Jim Odle.

Contingent of 7 to CSI’s National Convention Jim Odle, Gary Bergeron, Will Dunklin, Suzan Jordan, Kathy Proctor and Donna Covert. Gary will be awarded the Brossard award Jim will accept award for Stacy Colbaugh, The Speck Suzan will accept award for Outstanding Chapter Award.

Various roles remain unfilled. We are looking for volunteers to fill these. Contact President, Jim Odle.

Geoffrey Cavalier has started the Graphic Designs for the 2018 Regional Conference.

**Programs:** All meetings have speakers booked through the Regional Convention in June 2019.

Golf Tournament date set October 23, 2017 at Willow Creek Golf Course, Farragut Still need sponsors.

Josh Brock and Donna Covert are working together to update the Spring Product Show, rethinking the presentation and organization. Josh appreciates getting help pulling the show together.

**2018 Regional Conference:** Date is June 7-9, 2018. Will need sponsors and volunteers.

**Meeting adjourned at 6:39 p.m.**

|  | <p>Note: Willow Creek requires all golfers to wear soft spikes on the course. Dress is casual. Shorts are acceptable, jeans are not allowed. Collared shirts are recommended. You do not have to field an entire team to play. Individuals may sign up and they will be teamed with others for a good mix of talent.</p>   |
